# MAYA HTT

Leading Provider of Software Solutions and Technical Services for Digital Product Development

Product Engineering	NX™, SOLID EDGE®
Manufacturing Engineering	TECNOMATIX, BUILDIT 3D METROLOGY
Lifecycle Collaboration	TEAMCENTER®, TEAMCENTER® FOR SIM
Interoperability	NX™ SOLUTIONS FOR MSC NASTRAN, ANSYS®, ABAQUS, LS-DYNA®
Composites Engineering	FIBERSIM™, FEMPLY™, NX™ LAMINATES COMPOSITES, SYNCROFIT, SDE, QPE
Simulation & Test Solutions	NX™ NASTRAN, SIMCENTER™, LMS VIRTUAL.LAB, LMS IMAGINE.LAB, LMS AMESIM, FEMAP™

Simulation — System Analysis, Multi-Physics, Model Build/Post, Structural, Thermal, Flow, Motion, Acoustics, MBSE

MAYA Authored

Composites

Complete Solution Portfolio and Consulting Expertise

Electronics

PCB and System-Level Design and Simulation Solutions

Datacenter

Datacenter Infrastructure Management and Monitoring Solution

Aerospace

Simulation and Consulting Solutions used by the World's Top Space Companies

Automotive

Simulation Solutions Services for Lighting, Batteries and Thermal Management Systems

THE MAYA DIFFERENCE

In today's world where software is a commodity, the real gains in productivity are in workflow optimization, customization and automation. As a Siemens PLM development partner and provider of core technologies within the Siemens' simulation product portfolio, MAYA has a unique understanding of the potential for such efficiency gains.

MAYA's expertise was developed over decades of successful engineering and development projects varying in depth and breadth. We bring our skill and know-how to deliver valuable insight to enhance your product development processes. The world's top tier engineering organizations rely on MAYA's experience and expertise to achieve the full potential of their software and PLM investment.
